IRIS LIST

And Digging Time Prices on Special Bulbs

This list is sent only to those who have requested it or have recently bought Iris. Getting it out is a lot of work at a very busy time. We can afford to send it only to those who buy. It goes to so many this year that we are forced to cut down the list. Therefore if you want the list next year you must at least send a small order this year.

Iris. We have revised prices with the purpose of saving you money on every item. Possibly by much effort you may find an occasional item somewhere at a lower price, but not on the total of even a small order, I think. Our Iris are genuine, full size, rhizomes. The same variety that you pay more for. For example,—our Magnifica at 15c is the same one that many price at around 35c. An Iris garden without Magnifica is incomplete.

Even our 5c and 10c varieties are gorgeous. Many of them sold once for \$5 to \$15 or more for one root. Take Bobby Houdyshel for example. I want everyone to have it. It is as dainty and sweet as a pink orchid,—and for 10c this year,—temporary and special price.

Digging Time Specials. Digging time brings extra heavy expenses in a normally quiet season with reduced sales. In order to bring in more dollars to meet heavy expenses, a few items are chosen for offering at reduced prices that are good only until the fall catalog appears. For description, culture, etc. see next fall's catalog (or last).

Postage Prepaid only on orders for \$1.00 or more. Under \$1.00 send 10c extra. Remit by check or money order if possible.

California Customers. Don't forget to add 3% Sales Tax.

Iris Culture. Iris can be moved any time, but best time is soon after flowering. Planted before August 1 they are sure to bloom next spring if culture is right. Early planting gives larger clumps, more flowers. Cover rhizome only one inch. Plant in full sun or very slight shade preferably. Do not fertilize. Water freely after growth begins.

Name a few substitutes if possible.
